SUCCESS CRITERION 1.2.6 · LEVEL AAA

Sign Language (Pre-recorded)

Sign language interpretation is provided for all Pre-recorded audio content in synchronized media.

Principle 1: Perceivable

Guideline 1.2: Time-based Media

What each role can do

Product manager

Prioritize sign language interpretation for all major video content, ensuring inclusivity for deaf and hard of hearing users.

Designer

Integrate a sign language interpretation option that is clearly labeled and easy to access within the video player.

Developer

Incorporate a video player feature that allows users to select sign language interpretation where available.

Tester

Conduct thorough testing to ensure the sign language interpretation is correctly positioned, sized, and synchronized with the audio content.

Once it is fixed

> “Seeing the language I love used in your videos makes me feel recognized and valued. Thank you for signing me in!”
