

SUCCESS CRITERION 1.3.1 · LEVEL A

Info and Relationships

“Your page looks neatly organized. To my screen reader it's one long sentence: no headings, no lists, and a table that reads like soup.”

Who this helps: Blindness, Low Vision

SUCCESS CRITERION 1.3.1 · LEVEL A

Info and Relationships

Information, structure, and relationships conveyed through presentation can be programmatically determined or are available in text.

Principle 1: Perceivable

Guideline 1.3: Adaptable

What each role can do

Product manager

Require that visual structure, such as headings, lists, tables and form groups, is also present in the code.

Designer

Annotate designs with heading levels, list structure, table headers and field groupings.

Developer

Use semantic HTML and ARIA landmarks to help define the structure and purpose of elements.

Tester

Navigate by headings, lists and tables with a screen reader and confirm the structure matches what is shown.

Once it is fixed

> “Headings, lists, proper tables! Now I can skim your page as fast as anyone. Thanks for the structure!”

WCAG Quotes

Every WCAG 2.2 success criterion, told by the person it helps.

mpaiva.com/wcag-quotes/1-3-1-info-and-relationships

The quotes are written to illustrate the criterion. They are not testimonials from real people.
