

SUCCESS CRITERION 2.1.1 · LEVEL A

Keyboard

“Mouse? Who needs a mouse when you've got keyboard kung fu skills?”

Who this helps: Motor Impairments

SUCCESS CRITERION 2.1.1 · LEVEL A

Keyboard

All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes.

Principle 2: Operable

Guideline 2.1: Keyboard Accessible

What each role can do

Product manager

Ensure all features are accessible via keyboard navigation.

Designer

Design with keyboard shortcuts and focus indicators.

Developer

Implement robust keyboard navigation and avoid using keyboard traps.

Tester

Test extensively for keyboard-only operation across various browsers.

Once it is fixed

> “You just made my keyboard the magic wand of the Internet. Hats off to you!”

WCAG Quotes

Every WCAG 2.2 success criterion, told by the person it helps.

mpaiva.com/wcag-quotes/2-1-1-keyboard

The quotes are written to illustrate the criterion. They are not testimonials from real people.
