

SUCCESS CRITERION 2.4.1 · LEVEL A

Bypass Blocks

“Your navigation is forty stairs, and I climb them on every page. A skip link is the elevator.”

Who this helps: Blindness, Mobility Impairments

SUCCESS CRITERION 2.4.1 · LEVEL A

Bypass Blocks

A method is available to bypass blocks of content that are repeated on multiple web pages.

Principle 2: Operable

Guideline 2.4: Navigable

What each role can do

Product manager

Implement features that allow users to skip repetitive content.

Designer

Design "Skip to content" or similar links at the beginning of pages to aid in navigation.

Developer

Include mechanisms such as anchor links or skip links to bypass repetitive blocks of content.

Tester

Ensure that the "Skip to content" functionality works as intended across different devices and browsers.

Once it is fixed

> “Straight to the right floor, every time. Thanks for the elevator!”

WCAG Quotes

Every WCAG 2.2 success criterion, told by the person it helps.

mpaiva.com/wcag-quotes/2-4-1-bypass-blocks

The quotes are written to illustrate the criterion. They are not testimonials from real people.
